EDUCATION

ABES Engineering College, Ghaziabad

2022 - 2026

B.Tech in Computer Science

Relevant Coursework: Data Structures, Object-Oriented Programming, Operating Systems, DBMS.

SKILLS

Languages	C++, Python, JavaScript, TypeScript
Web	React.js, Tailwind CSS, Node.js, Express.js, HTML, CSS
Databases/Backend	Firebase, REST APIs
Dev Tools	Git, GitHub, Postman, Vite, CI/CD
Automation	n8n, OAuth2, WebSockets, API Integration, Workflow Automation, RAG

INTERNSHIPS

Dreamable Inc.

San Francisco Bay Area (Remote)

AI Agent Intern

June 2025 – Present

- Designed and deployed automation workflows using **n8n**, integrating Gmail, Airtable, Notion, and REST APIs.
- Built AI tools (LinkedIn poster, WhatsApp summarizer, RAG chatbot) that saved 10+ hours/week via workflow automation.
- Implemented **webhook triggers**, error handling, and custom JS for advanced logic.

Your Exam Saathi

Gurgaon, Delhi NCR (Remote)

Software Engineer Intern - Frontend

Sept 2024 - March 2025

- Developed **6+ pixel-perfect web pages** with a **100% design match** and cross-browser compatibility.
- Integrated **RESTful APIs** for efficient data retrieval, improving load speed by **30%**.
- Optimized API performance with **React Query**, reducing redundant calls via caching and state management.
- Enhanced **UI/UX and page load speed** by leveraging modern frameworks, reducing load times by **25%**.

PROJECTS

AI Avatar Agent with LiveKit, Tavus & OpenAI

June 2025

[GitHub](#) | [Live Link](#)

- Built a real-time AI avatar that joins **LiveKit** rooms and responds using **OpenAI GPT-4o**.
- Integrated **Tavus avatars**, Deepgram/OpenAI STT, and Rime TTS to deliver lifelike voice+video conversations.
- Orchestrated multi-API workflows via **Python** and **.env** configs to enable **dynamic, human-like interactions**.
- Enabled real-time chats; tested in demos and received **positive feedback for realism and responsiveness**.

AI Agent for Social Media Automation

April 2025

[GitHub](#)

- Developed a Node.js CLI and server app to automate LinkedIn and Twitter posts using **Gemini AI** via **MCP**.
- Integrated tool calling, **OAuth2**, **Express.js**, **Zod**, and **SSE** for secure server communication.
- Boosted content delivery efficiency by **60%**, reducing manual effort and improving consistency.
- Automated internal workflows, improving reliability and saving **hours weekly**.

Realtime Device Tracker

September 2024

[GitHub](#) | [Live Link](#)

- Built a **real-time device tracking app** using **Node.js**, **Express**, **Socket.IO**, and **Leaflet.js**.
- Integrated browser **Geolocation API** and **WebSockets** for live updates and user presence detection.
- Implemented dynamic map rendering with **OpenStreetMap tiles** and marker synchronization.
- Achieved **99% location update accuracy** with **sub-100ms latency** across multiple devices.
